PHOTOGRAPHY CLUB(S)

Before the London Camera Club Network began to take shape, Newham offered many Photography Courses and Technical tuition. However, when we quizzed ordinary people about their general views on 'Photography' and if they knew how to 'Start out' in the subject, no-one really knew where to begin or how to go about it. This is where the vital work of the HC begins.

"...After missing the tip of a Photography Club being started at my University before graduating, I saw a great opportunity to run a few clubs in my home town to support residents and local people to engage in Photography and compete in Regional competitions, representing the forth coming talent of my London Region. I am now the Club President of The East London Fun Photography Club."

HOW WE WORK

We take on small groups for practical workshop and technical sessions. The group meets up at local venues, Pubs, Social outlets and Community Centres. We realize that we must be accessible and foster

an "Open House" policy. Therefore, the Clubs are sensitive as to where the venues are located, transport accessibility consideration and overall viability.

PROGRAMMES

Each Camera Club follows a different Program structure, according to the Club location.

i.e The Towers Camera Club is a "Digital based" Club, however the "Docks Camera Club" teaches both Manual & Digital techniques because of the nature of the Club - focusing on 'Marine and Docklands' life.

- ★ Docks Camera Club
- Wharf Camera Club
- Towers Camera Club

SUPPORT

We encourage all of our Club members to support each other when coming together at any of the Clubs. We lay emphasis on Peer-to-peer learning and constructive criticism.

All workshops employ Hand-outs, guidelines, diagrams and provided Further Reading material to help students through the term. Before we enter regional competitions, we always give sound advice and encourage room for improvement.
